Subject: Hi

Dear Michelle,

Wanted to thank you for a very smooth move. Everything went according to plan and the gentlemen were very personable and pleasant to work with.

Only one thing - I know I signed a paper stating that I received everything but after a good nites sleep I noticed that the toilet seat for the disabled was not here.

I know the gentleman took it because I saw him put it on the truck. I don't think they noticed it when they delivered everything.

Could you please check that for me because my mom really needs it. It has a seat and arms and legs.

If you do find it you could drop it off on the first available truck you have coming this way. I would appreciate it very much.

Thank you again

Anne Romano
